***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 3/8/2004 have been considered and are persuasive. The closest prior art, Moore, III et al., discloses a heat shield for an under the hood vehicular engine component. The heat shield comprises three layers; an outer metal layer (figure 5 number 32), an insulation layer (figure 5 number 30), and an inner metal layer adapted to be positioned directly proximal to a shielded component (figure 5 number 34), wherein the insulation layer is positioned intermediately between the metal layers (figure 5 number 30), the layers collectively providing thermal insulation of, and reduced noise transmission from the component. The reference fails to teach or suggest that at least one edge portion of the heat shield comprises outwardly flared undulations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jane J Rhee whose telephone number is 571-272-1499. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nasser Ahmad can be reached on 571-272-1487. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
